Translating Stem Cell Research: Challenges at Front Line

Prof. Hiromitsu Nakauchi

School of medicine, Stanford University/The Institute of Medical Science, The University of Tokyo

Prof. Nakauchi is a world authority on the field of stem cell research. In this talk, he will introduce the induced pluripotent stem cell (iPSC) technology-based projects aiming at clinical use.

June 6, 2019, Thu, 16:00-17:30

Venue: Rm 511, Innovation Medical Research Institute, University of Tsukuba

※ Students, faculties and staffs outside T-LSI program are welcome to attend.
※ The seminar will be given in English.

Inquiry: Office of Master’s/Doctoral Program in Life Science Innovation
