

Master's/Doctoral Program in Life Science Innovation

T-LSI Special Seminar

Prof. Hiromitsu Nakauchi

(School of medicine, Stanford
University/The Institute of Medical
Science, The University of Tokyo)

Translating Stem Cell Research: From Academia to Industry

Prof. Nakauchi is a world authority on the field of stem cell research. In this talk, he will introduce induced pluripotent stem cell (iPSC) technology-based projects aiming at clinical use.

**November 21, 2022, Mon, 3:00pm-4:30pm
(estimated)**

**Venue : 8F, Health and Medical Science
Innovation Laboratory, University of Tsukuba**

※Students, faculties and staffs outside T-LSI program are welcome to attend. The seminar will be given in English.
